Five Aged Methodist Bishops to be Retired.

HOSPITALITY OF SALT LAKE ROAD ACCEPTED.

and which was marked by periods of great confusion, the committee on episcopacy of the Methodist general conference adjourned shortly after midnight this morning, having definitely decided, it is reliably stated, to retire five of the present bishops because of age and ineffectiveness and to choose six and probably eight new bishops. The action is said to be without precedent in the history of the church. There is little doubt but that the conference will confirm the action of the committee, as all the prominent leaders are members of the episcopacy committee. The committee's report will come before the general body next Tuesday, and in the meantime the leaders of the contending elements will marshal their forces for the final fray.

The names of the bishops who will be retired, if the recommendation of the committee is accepted, have not been made public.

Younger Men Desired.

In the church at large there is said to be strong sentiment against the retirement of bishops, but a majority of the delegates, and for the time being all thoughts of adjournment were abandoned. Dr. Buckley made his way to the platform amidst intense slience. Facing the assembly, he paused a moment and said slowly and impressively:

"A man in my position at this moment is to be pitied, but I am only doing my duty."

He then proceeded to read the report of the sub-committee to the committee on episcopacy, recommending the retirement of Bishops Walden, Mailalieu, Vinceut and Andrews, amidst the closest attention.

Dr. Buckley then read a further report of the committee on episcopacy. The names of the bishops who will be retired, if the recommendation of the committee is accepted, have not been made public.

Younger Men Desired.

In the church at large there is said to be strong sentiment against the retirement of bishops, but a majority of the delegates, and denity the conference. A motion to adjourn was promptly voted down. Motions to lay the report on the bishops was a cleeted for life, and nearly all of the vacancies heretofore created

While the report of the committee on episcopacy on the subject of restoring the pastoral time limit will be against any disturbance of the present unlimited tenure, it is reasonably certain that there will be a minority report on the matter, embodying the views of the various annual conferences that have petitioned the general conference to restore-the limit.

SIX VACANCIES CREATED.

Was Decisive.

Los Angeles, May 14—The Methodist general conference today performed one of its delicate, as well as its most painful duties. It retired from all active participation in church work five of its venerable bishops. They are Bishop Fedward G, Andrews of New York, Bishop John M. Walden of Clinchnatt, Bishop John M. Walden of Clinchnatt, Bishop John H. Vincent of Zurich, Switzerland; Bishop Willard F. Mallalieu of Bostoh and Bishop Cyrus D. Foss of Philadelphia.

The hallot on the retirement of these high officials was taken at noon today and will not be made public until the tellers report to the conference next Monday morning, it can be stated with every assurance that those abovenamed will not be game of the correspacy whose duty it was to consider this important matter and make recompacy whose duty it was to consider this important matters and make recompacy whose duty it was to consider this creation of the conference next supports that this action would result in Bishop Foss' reterition as an active general superintendent, but it is learned from reliable sources that the vote in favor of Bishop Foss' reteritors and active general superintendent, but it is learned from reliable sources that the vote in favor of Bishop Foss' reteritors of the conference of the work of the work of the work of the conference of the work of the w

The action of the conference today reated six vacancies in the board of hishops. These, together with two resulting from the deaths of Bishops Ninde and Hurst during the last quadriennum makes necessary the election of eight bishops by the present conference. It is also said two missionary bishops will be chosen.

The conference is expected to set the date for the balloting on the election of bishops either at today's or Monday's session. It is expected to be some days, probably not before next Wednesday, that the ballot will be taken and a further motion to lay this upon the table were successively voted upon by the conference, and, notwithstanding the injecting of every other parliamentary obstruction, the way was finally cleared. Dr. Euckley was given the floor and spoke in favor of the report.

rangement of the stomach so that his heart action is bad, is very nervous owing to physical organs impaired and nothing he can eat of an ordinary kind will properly assimilate it is time to call a heit. Such was my case two years ago last March when I commenced using Grape-Nuis according to directions and have continued their use up to the present time with the result I am in better health physically and mentally than I have been for many years, having passed my 63d year.

"To demonstrate this fact I proposed a foot-race with my 11-year old boy who was very fleet on foot and he he ing barefoot imagined he could outrun his Pa but I was besting him until a slip of my foot on a muddy place caused me to stumble and I found myself rolling in the mud in the road. I soon found my footing—again undanged and had to join in a good, hearty laugh with my wife and daughter.

"Why should I net recommend Grape-Nuts to my friends when the food has done so much for me for I am confident that had it not been for the help this excellent food supplied I would today have been past receivery. Instead of growing old now! I feel younger than I have for years with more mental strength as well as physical and can preach better sermons than ever before." Name given by Postum Co., Battle Creek, Mich.

Grape-Nuis makes far healthier, keener brains. A dull, won out brain can be remade on this food. There's a reason.
